

**Water Drainage**

The portlight outside frame is designed to allow water to drain away even when mounted on an angled coachroof side preventing water entering the boat when opening the portlight.

**Friction Hinges**

Lewmar's revolutionary hinges provide a choice of open positions with no knobs, stays or straps. Hinges and other moving parts are corrosion free.

**Anodised Extruded Alloy Frame**

Portlight inner and outer frames are made from aluminium extrusion, deep anodised for maximised corrosion resistance.

**Interior Trim**

**New Standard & Ocean Portlights**

Trim mouldings supplied with the portlights provide a fast and stylish way for boat builders to finish off the installation.

**Aluminium Valance - Atlantic Portlight**

An aluminium valance provides an alternative finishing style. Two sizes of trim are available depending on hull/coach house thickness.

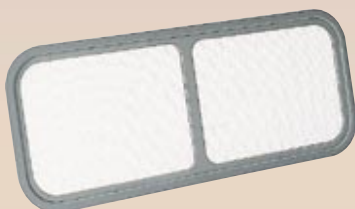

**Quick Action Handles**

Portlight handles apply the correct pressure evenly onto the seal in the closed position. Portlight handles are unable to vibrate open when in the closed position.

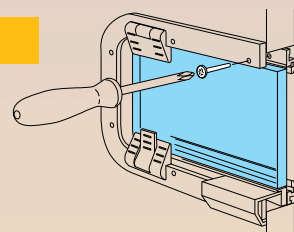

**Flyscreen**

The flyscreen is made from nylon mesh with a moulded frame which clips onto the portlight outer frame. Flyscreen can be left in position when the window is closed.

**Installation**

Fast and easy installation with no complicated cut-out shape.

**Supplied Complete**

Lewmar portlights are supplied complete with trim, screen (not New Standard size 4L & 4R), fastening screws and fitting instructions.

**Acrylic & Frame Colour Options**

For boat builders ordering larger volumes. Acrylic can be provided in clear, bronze and the standard smoke grey. Frames can be provided in black anodised, white powder coated, shiny anodised or the standard silver anodised.

## Retrofit Lock & Key Kit

The retrofit lock and key kit can be fitted to any Lewmar Hatch by drilling a hole through the acrylic and riveting a catch block to the lower frame. The lock and key are marinated to prevent corrosion.

Part No.	Description
360259990	Lock & Key Kit

## Rollstop Hinge Kit

Hinge kits are available in six sizes to fit the old Rollstop Hatch Range.

Part No.	Description
19784500	Hinge Kit Fits Size 00
19784400	Hinge Kit Fits Size 10, 20
19784700	Hinge Kit Fits Size 30, 40
19782200	Hinge Kit Fits Size 50, 60
19782400	Hinge Kit Fits Size 65
19782300	Hinge Kit Fits Size 70

## Atlantic Flyscreens

Part No.	Description
367110916	Flyscreen Size 10
367130916	Flyscreen Size 30
367132916	Flyscreen Size 32
367140916	Flyscreen Size 40
367152916	Flyscreen Size 52
367160916	Flyscreen Size 60
367164916	Flyscreen Size 64

## New Standard Portlight Flyscreen & Trims

Part Number	Size	Version	Description
367302916	0	Flyscreen	
368302539	0	Opening	Trim moulding (ivory)
